BETTER FOOTING IS IN THE BAG.

Field & Fairway™ is easy to apply and improves safety, playability and turf health.

As a coach, you know soccer is a game that demands better turf quality than most sports. It's all about quick stops, sharp pivots and all-out sprints at every angle.

But when the field goes bad, the whole game goes bad. Poor turf conditions can create a hazard for players. Wet grass and slippery mud increase the chance a player may twist an ankle or strain a knee.

That's why you need to always keep a bag or two of Field & Fairway in your car. It's the same product leading NFL, MLS and collegiate programs have used for years. Just pour it on, rake it in, and keep playing.

Use Field & Fairway. Because when it's game time, you don't want your team playing against adverse turf conditions.

PROTECTION & RESCUE

- + Improves safety by eliminating muddy, slippery conditions
- + Rescues field by absorbing standing water and preventing mud
- + Speeds recovery between games
- + Applies easily in seconds – just pour, rake and play
- + One 50-lb bag absorbs 6 gallons of water

PREVENTION & REPAIR

- + Prevents damage, improves drainage
- + Stores and releases water at the root level
- + Helps soil hold nutrients
- + Protects turf during dry spells
- + Apply to field before it rains

STORE A BAG, SAVE A GAME.

Choose from *Natural* or *Emerald* to disguise worn turf areas.

Pour, rake and play.

What is Field & Fairway?

Field & Fairway is a soil conditioner that consists of porous ceramic particles that help reduce compaction, manage moisture and promotes a safe playing surface. These small particles absorb more than 90% of their weight in water and prevent turf damage by removing surface moisture and protecting the crown of the grass plant.
